Come see how one of our premier builders, A. Murad Builders, repurposed an old school built by the Tilden Family in the mid 1880's that served the children of employees of the Tilden Pharmaceutical Company. A new four room school was built in 1905. Over the years it served as a meeting hall and the New Lebanon Post Office. In the 1960's, the New Lebanon school system used it again as classrooms as they awaited completion of their new Elementary school in 1970. The building became the home to Lenny's Restaurant, which survived into the 1990's, and Sassafras Restaurant thereafter. The building then became an antique shop in the early 2000's and fell rapidly into disrepair. Purchased in 2017, the building underwent a three-year renovation to restore it to its current historically accurate condition. The top floor houses a beautiful AirBnB space and the downstairs, a farm brewery which opened in May 2020.
